

Party Time

It is Sarah's birthday and she has invited you to her party. You are really excited but you have two tasks to do to get ready.

Task 1: Wrap Sarah's Present

You need to wrap Sarah's present. You have two types of wrapping paper at home (spotty wrapping paper and striped wrapping paper), and you have two types of bows (a pink bow and a purple bow).

You need to choose one type of wrapping paper and one colour bow for Sarah's present. Work with your partner to draw as many different ways you can wrap the present as possible. When you have drawn as many as you can think of, choose the one you think Sarah would like best.

Questions:

Can you list all the ways you came up with to wrap the present?

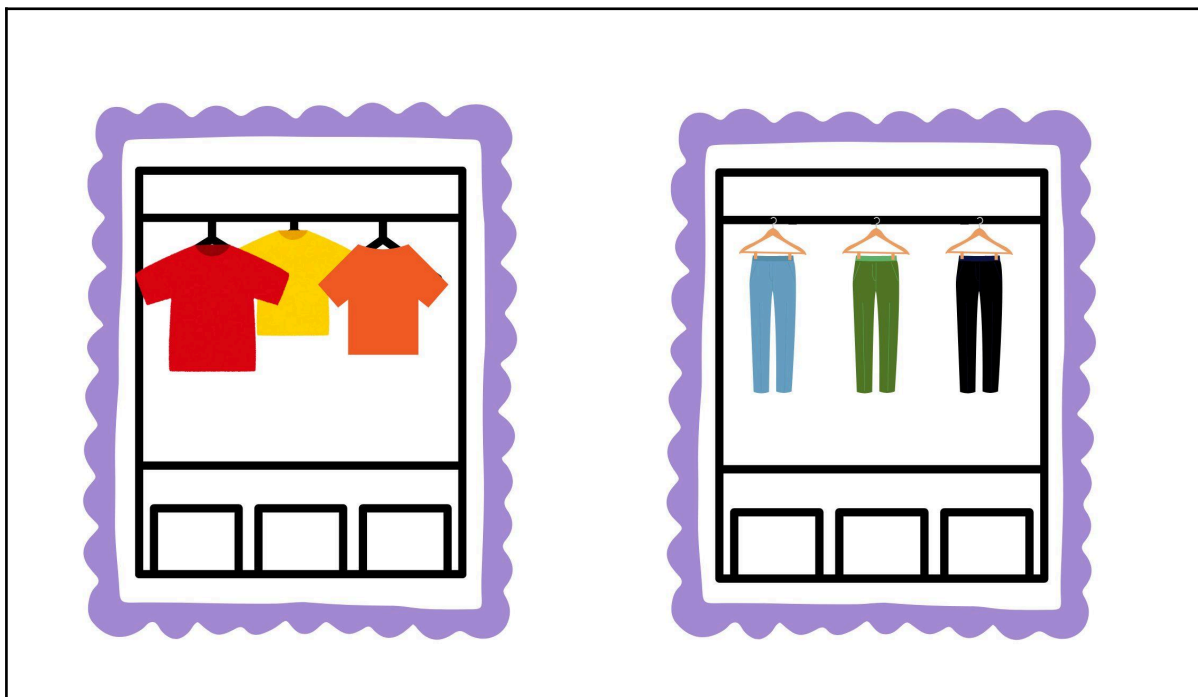

How many ways did you think of?

Which way did you decide to wrap Sarah's present?

Task 2: Choose an Outfit

You can't decide what to wear. You open your wardrobe and you see your three favourite t-shirts (a red t-shirt, a yellow t-shirt and an orange t-shirt) and your three favourite pairs of trousers (blue trousers, green trousers and black trousers).

You need to choose one t-shirt and one pair of trousers to wear. Work with your partner to draw as many different outfits as possible. When you have drawn as many as you can think of, choose the one you like the best and you will be all set for the party!

Questions:

Can you list all the outfits that you made?

How many outfits did you think of?

Which outfit did you decide to wear?
